The Communities research and development
information service
CORDIS

**A vital part of your programme's
dissemination strategy**

CORDIS is the information service set up under the VALUE programme to give quick and easy access to information on European Community research programmes. It is available free-of-charge online via the European Commission host organization (ECHO), and now also on a newly released CD-ROM.

CORDIS offers the European R&D community:

- a comprehensive up-to-date view of EC R&D activities, through a set of databases and related services,
- quick and easy access to information on EC research programmes and results,
- a continuously evolving Commission service tailored to the needs of the research community and industry,
- full user support, including documentation, training and the CORDIS help desk.

The CORDIS Databases are:

**R&D-programmes – R&D-projects – R&D-partners – R&D-results
R&D-publications – R&D-comdocuments – R&D-acronyms – R&D-news**

Make sure your programme gains the maximum benefit from CORDIS

- Inform the CORDIS unit of your programme initiatives,
- contribute information regularly to CORDIS databases such as R&D-news, R&D-publications and R&D-programmes,
- use CORDIS databases, such as R&D-partners, in the implementation of your programme,
- consult CORDIS for up-to-date information on other programmes relevant to your activities,
- inform your programme participants about CORDIS and the importance of their contribution to the service as well as the benefits which they will derive from it,
- contribute to the evolution of CORDIS by sending your comments on the service to the CORDIS Unit.

**For more information about contributing to CORDIS,
contact the DG XIII CORDIS Unit**
