---

**Effects of Ionizing Radiation: United Nations Scientific  
Committee on the Effects of Atomic Radiation  
2006 Report to the General Assembly, with Scientific  
Annexes—Volume II**

**Annex E (“Sources-to-effects assessment for radon in homes and workplaces”),  
paragraph 460**

The ninth sentence *should read*

For residential exposure to 150 Bq/m<sup>3</sup>, the authors estimated a combined OR  
of 1.1 (95% CI: 1.0, 1.3).
